RAHUL SHARMA

Web Developer | Frontend & Backend | Laravel | WordPress | MySQL

Shahpura (Bhilwara), Rajasthan | Phone: 7976843246 | Email: rahuldev5277@gmail.com

PROFILE SUMMARY

A passionate and detail oriented Web Developer with hands on experience in creating responsive, user friendly, and functional websites. I specialize in frontend and backend development using Laravel, and WordPress. With an analytical approach to solving problems, I focus on writing clean, maintainable code and ensuring high-quality output. During my internship, I gained real-world experience in full stack development, team collaboration, version control, debugging, UI enhancements, performance optimization, and client-side customization. My goal is to continuously learn and contribute to impactful digital solutions.

TECHNICAL SKILLS (DETAILED)

Laravel Framework

Familiar with MVC structure, Routes, Controllers, Blade templating, Migrations, CRUD operations, Auth system.

WordPress Development

Theme customization, plugin configuration, page builders, custom post types, admin panel modifications.

Git & GitHub

Version control, branching, merging, collaborating in teams, maintaining clean commit history.

Hosting (Basic)

Deploying websites on shared hosting platforms, managing project files, configuring domains, and ensuring smooth and reliable website performance.

INTERNSHIP EXPERIENCE (DETAILED)

Web Developer Intern — Muskowl LLP, Udaipur (9 Months)

• Worked closely with senior developers to understand real world project architecture and development workflows.
• Developed backend modules using Laravel, including routing, controller logic, and database models.
• Created WordPress pages, customized themes, optimized website speed, updated plugins, and handled client requests.
• Worked on MySQL data structures, built queries, handled export/import functionalities.
• Collaborated using Git & GitHub for version management and task assignments.
